

# Animal Mother Press Kit 1/2016

## Bio

Founded in Aachen (Germany) in 2013, Animal Mother head off to explore new creative grounds by integrating various artistic experiences. May 2015 saw the release of their debut-album, 'Strangers to Reason', on the band-owned netlabel Night Audit Music.

The release was followed by a series of hand-picked concerts throughout their home-region in summer 2016 which were well-received by critical audiences.

Enhancing the complex soundscapes set up on their debut-album, a 4-track EP entitled 'The World Is Yours' was released in August 2015.
